

Year R Learning Journey

Week beginning 1 st July

This week we will be continuing with the topic about Space!

Children are going to be detectives and discover a spaceship outside! Then we are going to think about aliens and design our very own alien. We will be writing about aliens and using *and*, *but* and *because* to extend sentences.

In maths we will be recapping measuring, including length, weight and capacity. We will use our knowledge to solve different problems.

In phonics we will be recapping all letter sounds and focusing on application.

How you can help at home:

- Can you write some sentences using our key words?
- Can you go to the library and find some books about space?
- You can play this phonics game to support your child with their sounding out and blending skills.

<http://www.phonicsplay.co.uk/PicnicOnPluto.html>

- This website provides some fun ideas to support your child in developing their fine motor skills.

Home Challenge:

- Can you make your own rocket? You can build it using any junk such as old boxes, plastic bottles...
- You can draw, write or take a photo of your home challenge and bring it to school so we can all share. We might even test the rockets to see how high they can fly!

Words of this week:

what when you

Please remember:

*Read every day with your child for at least 15 min. talk about the book, ask them to give reasons for their answers and make a record in their reading logs. Reading at home regularly does make a difference!

* P.E. DAY — Both classes have PE on Tuesday morning! Please ensure your child has a PE kit in school.
