DRAFT

Prepared By	Ingrid Dowse/ Sarah Mack
Approved By	Academy Committee
Approval Date	September 2026
Policy Review Date	September 2027

HISP Multi Academy Trust Tanners Brook Primary School Pupil Allergy Policy

1. Aims

This policy aims to:

Set out our school's approach to allergy management, including reducing the risk of exposure and the procedures in place in case of allergic reaction

Make clear how our school supports pupils with allergies to ensure their wellbeing and inclusion

Promote and maintain allergy awareness among the school community

2. Legislation and statutory guidance

This policy is based on the Department for Education (DfE)'s guidance on [allergies in schools](#) and [supporting pupils with medical conditions at school](#), the Department of Health and Social Care's guidance on [using emergency adrenaline auto-injectors in schools](#), and the following legislation:

[The Food Information Regulations 2014](#)

[The Food Information \(Amendment\) \(England\) Regulations 2019](#)

3. Roles and responsibilities

We take a whole-school approach to allergy awareness.

3.1 Allergy leads

The nominated allergy leads are Mrs I Dowse and Mrs S Mack.

They're responsible for:

Promoting and maintaining allergy awareness across our school community

Recording and collating allergy and special dietary information for all relevant pupils

Ensuring:

- All allergy information is up to date and readily available to relevant members of staff
- All pupils with allergies have an allergy action plan completed by a medical professional
- All staff receive an appropriate level of allergy training
- All staff are aware of the school's policy and procedures regarding allergies
- Relevant staff are aware of what activities need an allergy risk assessment

Keeping stock of the school's adrenaline auto-injectors (AAIs)

Regularly reviewing and updating the allergy policy

3.2 School medical officer (Mrs S Wren)

HISP Multi Academy Trust

Tanners Brook Primary School

Pupil Allergy Policy

The school medical officer is responsible for:

- Co-ordinating the paperwork and information from families
- Co-ordinating medication with families
- Checking spare AAls are in date
- Any other appropriate tasks delegated by the allergy lead

3.3 Teaching and support staff

All teaching and support staff are responsible for:

- Promoting and maintaining allergy awareness among pupils
- Maintaining awareness of our allergy policy and procedures
- Being able to recognise the signs of severe allergic reactions and anaphylaxis
- Attending appropriate allergy training as required
- Being aware of specific pupils with allergies in their care
- Carefully considering the use of food or other potential allergens in lesson and activity planning
- Ensuring the wellbeing and inclusion of pupils with allergies

3.4 Parents/carers

Parents/carers are responsible for:

- Being aware of our school's allergy policy
- Providing the school with up-to-date details of their child's medical needs, dietary requirements, and any history of allergies, reactions and anaphylaxis
- If required, providing their child with 2 in-date adrenaline auto-injectors and any other medication, including inhalers, antihistamine etc., and making sure these are replaced in a timely manner
- Carefully considering the food they provide to their child as packed lunches and snacks, and trying to limit the number of allergens included
- Following the school's guidance on food brought in to be shared
- Updating the school on any changes to their child's condition

3.5 Pupils with allergies

These pupils are responsible for:

- Being aware of their allergens and the risks they pose
- Understanding how and when to use their adrenaline auto-injector
- If age-appropriate, carrying their adrenaline auto-injector on their person and only using it for its intended purpose

3.6 Pupils without allergies

These pupils are responsible for:

- Being aware of allergens and the risk they pose to their peers

HISP Multi Academy Trust

Tanners Brook Primary School

Pupil Allergy Policy

4. Assessing risk

The school will conduct a risk assessment for any pupil at risk of anaphylaxis taking part in:

- Lessons which involve cooking or the preparation of food
- Science experiments involving foods
- Crafts using food packaging
- Off-site events and school trips
- Any other activities involving animals or food, such as animal handling experiences or baking

A risk assessment for any pupil at risk of an allergic reaction will also be carried out where a visitor requires a guide dog.

5. Managing risk

5.1 Hygiene procedures

- Pupils are reminded to wash their hands before and after eating
- Sharing of food is not allowed
- Pupils have their own named water bottles

5.2 Catering

The school is committed to providing safe food options to meet the dietary needs of pupils with allergies.

- Catering staff receive appropriate training and are able to identify pupils with allergies
- School menus are available for parents/carers to view with ingredients clearly labelled
- Where changes are made to school menus, we will make sure these continue to meet any special dietary needs of pupils
- Food allergen information relating to the 'top 14' allergens is displayed on the packaging of all food products, allowing pupils and staff to make safer choices. Allergen information labelling will follow all [legal requirements](#) that apply to naming the food and listing ingredients, as outlined by the Food Standards Agency (FSA)
- Catering staff follow hygiene and allergy procedures when preparing food to avoid cross-contamination

5.3 Food restrictions

We acknowledge that it is impractical to enforce an allergen-free school. However, we would like to encourage pupils and staff to avoid certain high-risk foods to reduce the chances of someone experiencing a reaction. These foods include:

- Packaged nuts
- Cereal, granola or chocolate bars containing nuts
- Peanut butter or chocolate spreads containing nuts

HISP Multi Academy Trust

Tanners Brook Primary School

Pupil Allergy Policy

- Peanut-based sauces, such as satay
- Sesame seeds and foods containing sesame seeds

If a pupil brings these foods into school, they may be asked to eat them away from others to minimise the risk, or the food may be confiscated.

5.4 Insect bites/stings

When outdoors:

- Shoes should always be worn except when in sandpit
- Food and drink should be covered
- Rubbish should be put in bins provided

5.5 Animals

- All pupils will always wash hands after interacting with animals to avoid putting pupils with allergies at risk through later contact
- Pupils with animal allergies will not interact with animals

5.6 Support for mental health

Pupils with allergies will have additional support through:

- Pastoral care
- Regular check-ins with their class teacher

5.7 Events and school trips

For events, including ones that take place outside of the school, and school trips, no pupils with allergies will be excluded from taking part

The school will plan accordingly for all events and school trips, and arrange for the staff members involved to be aware of pupils' allergies and to have received adequate training

Appropriate measures will be taken in line with the schools AAI protocols for off-site events and school trips (see section 7.5).

6. Procedures for handling an allergic reaction

6.1 Register of pupils with AAI

The school maintains a register of pupils who have been prescribed AAI or where a doctor has provided a written plan recommending AAI to be used in the event of anaphylaxis. The register includes:

- Known allergens and risk factors for anaphylaxis
- Whether a pupil has been prescribed AAI(s) (and if so, what type and dose)

Where a pupil has been prescribed an AAI, whether parental consent has been given for use of the spare AAI, which may be different to the personal AAI prescribed for the pupil

HISP Multi Academy Trust

Tanners Brook Primary School

Pupil Allergy Policy

- A photograph of each pupil to allow a visual check to be made (this will require parental consent)

The register is kept in the staff room, on Arbor and in the medical files stored in the school office and these can be checked quickly by any member of staff as part of initiating an emergency response. Every class also has the green medical box which holds any medications for the individual children and these are taken outside during PE lessons, Forest School or outdoor learning.

Allowing the pupils to keep their AAls with them will reduce delays and allows for confirmation of consent without the need to check the register.

6.2 Allergic reaction procedures

As part of the whole-school awareness approach to allergies, all staff are trained in the school's allergic reaction procedure, and to recognise the signs of anaphylaxis and respond appropriately

Staff are trained in the administration of AAls to minimise delays in pupil's receiving adrenaline in an emergency

If a pupil has an allergic reaction, the staff member will initiate the school's emergency response plan, following the pupil's allergy action plan

If an AAI needs to be administered, a member of staff will use the pupil's own AAI, or if it is not available, a school one

If the pupil has no allergy action plan, staff will follow the school's procedures on responding to allergy and, if needed, the school's normal emergency procedures [please see the First Aid policy for guidelines]

A school AAI device will be used instead of the pupil's own AAI device if:

- Medical authorisation and written parental consent have been provided, or
- The pupil's own prescribed AAI(s) are not immediately available (for example, because they are broken, out-of-date, have misfired or been wrongly administered)

If a pupil needs to be taken to hospital, staff will stay with the pupil until the parent/carer arrives, or accompany the pupil to hospital by ambulance

If the allergic reaction is mild (e.g. skin rash, itching or sneezing), the pupil will be monitored and the parents/carers informed

7. Adrenaline auto-injectors (AAls)

At Tanners Brook we follow the Department of Health and Social Care's Guidance on using [emergency adrenaline auto-injectors in schools](#)

7.1 Purchasing of spare AAls

The allergy leads are responsible for buying AAls and ensuring they are stored according to the guidance:

HISP Multi Academy Trust

Tanners Brook Primary School

Pupil Allergy Policy

- AAls will be purchased from a local pharmacy.
- Two pens will be purchased for children under six and two for children over six [guidance](#)

7.2 Storage (of both spare and prescribed AAls)

- The allergy leads will make sure all AAls are:
- Stored at room temperature (in line with manufacturer's guidelines), protected from direct sunlight and extremes of temperature
- Kept in safe and suitably central locations to which all staff have access, but is out of the reach and sight of children
- **Not** locked away, but accessible and available for use at all times
- **Not** located more than 5 minutes away from where they may be needed
- Spare AAls will be kept separate from any pupil's own prescribed AAI, and clearly labelled to avoid confusion
- Spare AAls will be stored in the main reception and the dining hall/kitchen area

7.3 Maintenance (of spare AAls)

Mrs S Wren and Mrs S Verrall are responsible for checking monthly that:

- The AAls are present and in date
- Replacement AAls are obtained when the expiry date is near

7.4 Disposal

AAls can only be used once. Once an AAI has been used, it will be disposed of in line with the manufacturer's instructions (for example, in a sharps bin for collection by the local council).

7.5 Use of AAls off school premises

Pupils at risk of anaphylaxis who are able to administer their own AAls should carry their own AAI with them on school trips and off-site events

On school trips the class green medical box will be taken which contains 2 prescribed AAls for each pupil with an allergy.

7.6 Emergency anaphylaxis kit

The school holds an emergency anaphylaxis kit. This includes:

- Spare AAls
- Instructions for the use of AAls
- Instructions on storage
- Manufacturer's information
- A checklist of injectors, identified by batch number and expiry date with monthly checks recorded
- A note of arrangements for replacing injectors
- A list of pupils to whom the AAI can be administered
- A record of when AAls have been administered

HISP Multi Academy Trust Tanners Brook Primary School Pupil Allergy Policy

8. Training

- The school is committed to training all staff in allergy response. This includes:
- How to reduce and prevent the risk of allergic reactions
- How to spot the signs of allergic reactions (including anaphylaxis)
- The importance of acting quickly in the case of anaphylaxis
- Where AAls are kept on the school site, and how to access them
- How to administer AAls
- The wellbeing and inclusion implications of allergies

Training will be arranged by the allergy leads and carried out annually

9. Links to other policies

- This policy links to the following policies and procedures:
- Health and safety policy
- Supporting pupils with medical conditions policy
- Aspens Allergen Policy
- First Aid Policy
