**Striving for our personal best to make our community proud!**

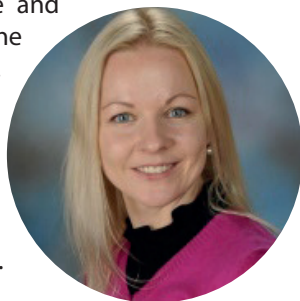

come and see why our children love coming to school!

I am proud to be Head of School at Tanners Brook Primary School and to be part of the education of our wonderful children. I have been part of the school since 2006, first as a teacher, then a year leader, then a Vice Principal and now as Head of School. All three of my children came to Tanners Brook so the school has a real place in my heart. It would be my pleasure to welcome you to our open afternoon. Ingrid Dowse

As Early Years Leader, I am so excited to welcome new prospective parents to Early Years at Tanners Brook Primary School. When you join Tanners Brook, you join our community. The school has a lovely feel to it and this starts in Early Years with all children and staff striving for their personal best in everything they do. Our children are engaged through an exciting, personalised curriculum which takes full advantage of our fabulous Early Years facilities. Your children will be supported by our fantastic, committed team of hard-working staff, who care deeply about your children and are passionate about laying the foundations to set them up to be successful lifelong learners. Please do come and see what we have offer your child and give them the opportunity to get the best start in life at Tanners Brook.

Our open afternoons are an ideal opportunity to see the Early Years team in action and to ask any questions you may have about the school. Please do contact our office to book a slot and we will look forward to meeting you.

Rasa Kavaliauskiene - Early Years and Phonics Phase Leader

We are now on Facebook, and we post stories from our School regularly. This is a great way of seeing what our children do and learn when they're with us!

Multi Academy Trust

HISP is a small trust based in Hampshire, IoW, Southampton and Portsmouth. We are a centre of excellence for teacher development and have based our training at Tanners Brook Primary School. The school will benefit from the new early career teacher development, initial teacher training for primary teachers, the maths mastery programme and our evidence informed research school.

It is an exciting time for Tanners Brook as they begin to lead on developing teachers for the future.
