

February 28th 2PM Tanners Brook School

We would love you to be part of our Cooking with Confidences Parent event, where we will be making a basic tomato sauce from scratch and demonstrating how this simple sauce can be turned into 5 different delicious dishes which not only taste great but also help with the current cost-of-living crisis.

We will also be running a Q&A session with our Regional Development chef so you can ask him any food related questions, get some great ideas about feeding your children and tap into his knowledge of producing great dishes at an affordable price.

We will bring samples of the great food we provide the children at school and the dishes we will be demonstrating on the day.

Look forward to seeing you there!
