

Year R Learning Journey

Week beginning 2nd March

This week our topic will be *Dinosaurs*

We will be learning all about the dinosaurs. We are going to discover some strange eggs in the woods and write a letter about it, using our letter sounds to build simple words and sentences. We might even have a special visitor prof. Marshall from the University of Southampton coming in to talk to us about these incredible creatures!

In maths we will be learning to count back from 10. We will be ordering, comparing numbers, and exploring different ways to make 10.

In our special jobs, we will have an exciting sessions exploring different feelings and emotions through different style music, dance, and a variety of art forms. Children will get to move, create, and express themselves in lots of fun and imaginative ways, discovering how emotions can be shown through sound, movement, and different colours.

Please remember:

* Please remember that we open our doors at 8:45 and close at **8.50**. Could you please ensure that your child is in school on time as we start our learning straight away once the children come in!

* Both classes have PE on **Monday**. Please ensure your child has their PE kit in school.

* **World book day** on **Thursday 5th March** so please come to school dressed as your favourite book character and bring your favourite book from home to share with the class. Please ensure the book has a sticky note clearly labelled with your child's name.

Home Challenge:

- Make number cards to 10. Hold up 2 number cards and ask your child to show the corresponding number of fingers or to put that number of objects e.g. buttons, Lego, pasta pieces...next to each number. Which number is bigger? Which is smaller? Can they recognise all their numbers? Can they count accurately?
- Please bring in any Dinosaur books you have at home that you do not mind us looking at. These could be stories about dinosaurs or information books. (Please ensure your child's name is in them.)
- Learn more about the dinosaurs and watch this video [Dinosaurs for Kids | Learn about Dinosaur History, Fossils, Dinosaur Extinction and more! - YouTube](#)
- Have a go at dancing. Learn a new dinosaur dance ["The Dinosaur Dance!" 🦖 /// Danny Go! Brain Break Songs for Kids - YouTube](#)

Have fun and make your own dinosaur!

At Tanners Brook Primary School, we love celebrating children's efforts and achievements. You are warmly invited to join us on **Friday 6th March at 2:45 for Reflection Afternoon**, where we will celebrate the amazing learning, your child is doing and think about their next steps. You will also have the chance to help your child decorate their Discovery Book. We look forward to seeing you!
