

5 March 2021

Dear parent or carer,

Head of School - Ingrid Dowse
Executive Head - Amanda Parry

Symptom-free COVID-19 testing in Southampton for households, support bubbles and childcare bubbles with children in school

To help keep schools and communities safe, symptom-free COVID-19 testing is now available to many more Southampton residents.

This week the government announced that any individuals who have sustained contact with school children and early years children can test themselves twice every week as schools return from Monday 8 March. This includes all households with children, members of support bubbles, childcare bubbles, and people working in childcare and in any related occupations.

As you may be aware our pupils will not be asked to test at this time as primary school pupils are not being tested.

Although COVID-19 cases are falling across the city, we still need to do everything we can to bring them down further to keep ourselves, our families and our colleagues safe, especially as we move out of lockdown. **One in three people with COVID-19 don't have symptoms**, so people could be spreading the infection without realising it. It is really important that we identify those people so that they can self-isolate and break the chain of transmission. The more people we find who have the virus and then self-isolate, the more quickly we will be able to return to a more normal way of life for everyone.

We strongly urge anyone who is eligible including parents and carers to use symptom-free testing and play their part in helping to reduce transmission of COVID-19 and protect their school community.

As a school we cannot give test kits to parents, carers or household members. You will need to organise your own tests and this can be done via a number of options detailed below. Please be aware that further options are being explored, but for the moment you can organise a test as set out below:

1. You can [book appointments](#) to be tested at **Southampton's symptom-free testing sites**. Testing at these sites is assisted, which means you will swab yourself under the supervision of a trained operator.
 - Merryoak Community Centre SO19 7JY, seven days a week, 8am to 7pm
 - A Mobile Testing Unit (MTU) will operate at locations around the city, seven days a week, 8am – 6.15pm, on a rotating basis
 - Lordshill Car Park, SO16 8HY
 - Richard Taunton College, SO15 5RL
 - Shirley Baptist Church, SO15 5LG

2. **You can use the Community Collect scheme to collect home lateral flow testing kits from local testing sites** (Marlborough Road, Woodley Road, Guildhall and Avenue Campus), **seven days a week, 1pm-7pm, to take at home. The testing kits you pick up will contain instructions on how to take the tests and register the results via the online registration portal.** No appointment is needed for collection only. [Find your nearest rapid lateral flow test site.](#)
3. By [ordering home test kits online](#) **Please do not order online if you can get a test through other methods. This frees up home delivery for those who need it most.**
4. You may be able to access symptom-free testing through your **employer's testing scheme**, if one is available.

Do not attend your test appointment or visit any of the testing sites to collect kits if you develop coronavirus symptoms or are self-isolating. If you have COVID-19 symptoms you must not use the symptom-free testing and you should [book a symptomatic test](#) in the usual way.

If anyone tests positive or gets coronavirus symptoms, they should tell the school and:

- self-isolate immediately
- get a PCR test to confirm the result **if they have taken the test at home**
- follow the [stay at home guidance for households with possible coronavirus infection](#)

A negative result means the test did not find signs of coronavirus. But this does not guarantee you do not have coronavirus, so you should keep following all [coronavirus advice](#) including:

- regular handwashing
- social distancing
- wearing a face covering where recommended

There is also more [guidance](#) here on who can be tested and how you can get a test.

Please do not contact the school regarding household testing as we will not be able to provide any further information than we have shared above.

With best wishes, and my thanks for all you have done and keep doing to keep your families and Southampton residents safe,

Yours sincerely,

Ingrid Dowse
Head of School
