

Year R Learning Journey

Week beginning 15th March

This week our topic will be 'Growing'

We will be learning about ourselves and growing older. We will be talking about how we change over time and write what we would like to be like and what we would like to do when we get older.

In maths we will be learning to add and subtract. We will be recording number sentences and using different strategies such as using objects and counting on or backwards to work out calculations.

Words of this week:

little you put

Please remember:

- * Every day your child needs to bring a named water bottle.
- * P.E. DAY — Both classes have PE on Friday morning. Please leave your child's PE kit bag at school. **Please remember to remove all jewellery on this day, or cover earrings with tape.**

Sounds of the week:

or er

Home Challenge:

- Talk with your child about your childhood, teach them some of your favourite games that you played when you were little!
- Could you find some old photographs of your child as a baby and as a toddler? Look at them and talk about how we change over time. You could also email your photos to info@tannersbrookpri.org.uk We will be using these to look at, how we have changed.
- Practise simple addition and subtraction. Work out addition and subtraction using a number line. Ask your child's teacher if you would like some number lines to take home.
- **Read** every day with your child for at least 15 min. They need to practise their sounding out and blending skills. Every week we will be sending 2 books home so please ensure your child has a book bag at school every Friday.

All of the staff in Early Years are so impressed with how the children have resettled into school this week.

A big thank you for being so positive and encouraging the children to come into school independently. They are doing so well!
